

No	Verification	Status	Test data
1	Enter valid data in all fields of the data entry form		card number:1234567891234567, month:01, year:23, CVV code:111
2	Do not enter anything in all fields of the data entry form		
3	Check the display of an error message in all fields of the data entry form		
4	Enter only a valid card number, and leave the other fields blank		card number:1234567891234567
5	Enter only a valid card validity period (month), leave other fields blank		month:01
6	Enter only a valid card expiration date (year), and leave other fields blank		23
7	Enter only a valid CVV code, and leave the rest of the fields blank		111
8	Enter valid data only in the card number and expiration month fields		card number:1234567891234567, month:01
9	Enter valid data only in the card number and expiration date (month and year) fields		card number:1234567891234567, month:01, year:23
10	Enter valid data only in the expiration date fields (month and year)		month:01, year:23
11	Enter valid data only in the expiration date (month, year) and CVV code fields		month:01, year:23, CVV code:111
12	Enter valid data only in the card number and CVV code fields		card number:1234567891234567, CVV code:111
13	Enter valid data only in the card number and expiration date (year) fields		card number:1234567891234567, year:23
14	Enter valid data only in the expiration date (year) and CVV code fields		year:23, CVV code:111
15	Enter valid data only in the expiration date (month) and CVV code fields		month:01, CVV code:111
16	Verification of the card number field		
17	Do not enter anything in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		month:01, year:23, CVV code:111
18	Enter a space in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		Space, month:01, year:23, CVV code:111
19	Enter 0 in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		0, month:01, year:23, CVV code:111

20	Enter 1 digit in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		1, month:01, year:23, CVV code:111
21	Enter 2 digits in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		12, month:01, year:23, CVV code:111
22	Enter 8 digits in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		card number:12345678, month:01, year:23, CVV code:111
23	Enter 15 digits in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		card number:123456789123456, month:01, year:23, CVV code:111
25	Enter 17 digits in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		card number:12345678912345678, month:01, year:23, CVV code:111
26	Enter letters in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		тест, month:01, year:23, CVV code:111
27	Enter special symbols in the card number field and enter valid data in the card expiration date (month, year) and CVV code fields		*_ /+, month:01, year:23, CVV code:111
28	Verification of the card expiration date (month) field		
29	Do not enter anything in the card expiration date (month) field and enter valid data in the card number, card expiration date (year), and CVV code fields		card number:1234567891234567, year:23, CVV code:111
30	Enter a space in the card expiration date (month) field and enter valid data in the card number, card expiration date (year), and CVV code fields		Space, card number:1234567891234567, year:23, CVV code:111
31	Enter 0 in the card expiration date (month) field and enter valid data in the card number, card expiration date (year), and CVV code fields		0, card number:1234567891234567, year:23, CVV code:111
32	Enter 1 digit in the card expiration date (month) field and enter valid data in the card number, card expiration date (year), and CVV code fields		1, card number:1234567891234567, year:23, CVV code:111
34	Enter 3 digits in the card expiration date (month) field and enter valid data in the card number, card expiration date (year), and CVV code fields		111, card number:1234567891234567, year:23, CVV code:111
35	Enter the number 13 in the card expiration date (month) field and enter valid data in the card number, card expiration date (year), and CVV code fields		13, card number:1234567891234567, year:23, CVV code:111
36	Enter the letters in the card expiration date (month) field and enter valid data in the card number, card expiration date (year), and CVV code fields		тест, card number:1234567891234567, year:23, CVV code:111
37	Enter special symbols in the card expiration date (month) field and enter valid data in the		*_ /+, card number:1234567891234567,

	card number, card expiration date (year), and CVV code fields		year:23, CVV code:111
38	Verification of the card expiration date (year) field		
39	Do not enter anything in the card expiration date (year) field and enter valid data in the card number, card expiration date (month), and CVV code fields		card number:1234567891234567, month:01, CVV code:111
40	Enter a space in the card expiration date (year) field and enter valid data in the card number, card expiration date (month), and CVV code fields		Space, card number:1234567891234567, month:01, CVV code:111
41	Enter 0 in the card expiration date (year) field and enter valid data in the card number, card expiration date (month), and CVV code fields		0, card number:1234567891234567, month:01, CVV code:111
42	Enter 1 digit in the card expiration date (year) field and enter valid data in the card number, card expiration date (month), and CVV code fields		1, card number:1234567891234567, month:01, CVV code:111
44	Enter 3 digits in the card expiration date (year) field and enter valid data in the card number, card expiration date (month), and CVV code fields		123, card number:1234567891234567, month:01, CVV code:111
45	Enter letters in the card expiration date (year) field and enter valid data in the card number, card expiration date (month), and CVV code fields		тест, card number:1234567891234567, month:01, CVV code:111
46	Enter special symbols in the card expiration date (year) field and enter valid data in the card number, card expiration date (month), and CVV code fields		*_ /+, card number:1234567891234567, month:01, CVV code:111
47	Verification of the CVV code field		
48	Do not enter anything in the CVV code field and enter valid data in the card expiration date (year, month) and card number fields		card number:1234567891234567, month:01, year:23
49	Enter a space in the CVV code field and enter valid data in the card expiration date (year, month) and card number fields		Space, card number:1234567891234567, month:01, year:23
50	Enter 0 in the CVV code field and enter valid data in the card expiration date (year, month) and card number fields		0, card number:1234567891234567, month:01, year:23
51	Enter 1 digit in the CVV code field and enter valid data in the card expiration date (year, month) and card number fields		1, card number:1234567891234567, month:01, year:23
52	Enter 2 digits in the CVV code field and enter valid data in the card expiration date (year, month) and card number fields		12, card number:1234567891234567, month:01, year:23
54	Enter 4 digits in the CVV code field and enter valid data in the card expiration date (year, month) and card number fields		1234, card number:1234567891234567, month:01, year:23

55	Enter the letters in the CVV code field and enter valid data in the card expiration date (year, month) and card number fields		тест, card number:1234567891234567, month:01, year:23
56	Enter special symbols in the CVV code field and enter valid data in the card expiration date (year, month) and card number fields		*_/+, card number:1234567891234567, month:01, year:23
